Subject: Cath Lab 2 Purple Zone Control Room Roller Blinds

Hi Steven,

Hope you had a good weekend.

I am nearing completion of Cath Lab 2 and we require 2 x control room windows to have "black out" roller blinds in colour white same spec as you did for Cath Lab 3 ones.

There is also a very small side window but not sure if you would be able to do a roller blind for this also - if not we can keep the verticals if they are still fit for purpose but happy to replace if not.

Would you be able to visit site please and measure up? The access to this room is completely closed off to the labs and entrance is via a fire exit.

I will be on site on Wednesday morning if that suited you to meet and I could take you to the lab but failing that if you could call John Gibson, Site Manager, on 07920138584 and he can meet you at the glass corridor (main corridor) beside the mobile MRI scanner which sits outside and he can take you to the site.

Hi Steven,

Thanks for meeting this morning and sending through the quote so quickly. Please proceed with the order. I will place on the system tomorrow.
Just checking that the fabric will be of "blackout" quality.

Many thanks again
