Child safety legislation requires all chains to be fixed at 1500mm above finished floor level and tethered back to the window frame with a safety device. If this building is exempt from the new legislation - no children will be present at any time, this can be ignored, we will need this clause confirmed in your order to us.

Spec: Benthin 43 Heavy Duty Roller Blind System complete with LAM springs for ease of lifting the fabric. Exposed extruded aluminium 'Circular' profile bottom bar in silver.

Continuous metal chain.

Fabric: Uniview 1100 series colour Twilight - 1% screen with light grey reflective backing for reducing glare and heat gain through the glazing.
