Hi David

2 over the sizes are out of spec as this would only go to a max width of 1.8m.

The 2 over spec will bow in the middle (especially the 2383mm wide one) so we won't be able to quote for this.

Kind regards,

Good morning,

A customer has pleated blinds fitted by Sanderson to his windows (not roof) with tension cords fixed to bottom of window, without bottom bar (at sill).

He is looking to have further - similar - blinds fitted, however only with the tension cords at the sides, not in between.

Re. the window dimensions below, can we offer this either as per Sanderson type or 3-bar system (bar at sill).

1139mm x 1464mm  
1824mm x 1173mm  
2383mm x 1311mm

FYI: He looked at LL fabrics:

Good morning,

Thanks for your assistance.

Can you confirm - or not - that the Blind size: 1139 x 1474 could be mad ok, without centre cords?

Should you have any further queries or wish to proceed, please get back to me.

Best Regards

David
