Thanks Graeme

These would need site sized (on a Wednesday also) and a check on the clearance from the blind to the lockers- we allowed a zone, but the lockers may have been fitted slightly proud or may have additional projections, the blind is to be fitted per the drawing to the rear of the downstand formed along the front

Many thanks

Lucy MacKenzie

Lucy,

Steve has advised 2-3 weeks lead time however he will keep me posted and he is aware of the Wednesday as being the best installation date .

Kind Regards,

RGU have confirmed they wish to proceed with the roller blinds to the laptop lockers. They are to be automated as specified.

The colour selected is a tonal match- Lily from the A4 swatch card left on site, I understand that is the Louvolite Carnival range.

Access to site size would be best on Wednesdays as you know, can you arrange for Aberdeen Blinds to attend?

We have asked if there is a preference for these to be on a stand alone remote control or if on one of the same main ones. We will confirm shortly

Please ensure the drop of the blind wont be snagged by any projecting element on the laptop lockers, there should be power adjacent for the lockers to get a supply from.

Can you confirm timescales?

Many thanks
