Subject: Blinds appointment Tues 10th - Garry Macdonald

Hello,

Big thanks to the staff in your Esselmont Avenue showroom, they were very helpful.

In preparation for our blinds measure appointment on Tuesday afternoon at 20 Callaghan Road, Grandhome, Bridge of Don (keys from Cala showhome on Callaghan Road which is right next door) we just wanted to confirm what we need measured.

Downstairs

Kitchen - Perfect Fit for patio door/patio windows

Kitchen - roller blind for window above sink 1123 x 990 ~~144~~ -125

Utility - roller blind for window above sink 1181 x 990 ~~144~~ -125

Living room - query if we could get shutters measured for this space, or as it's 3 panels with thick divider that would work? Back up plan would be for a roller blind so need measured in case.

1962 x 1290 Roman  
305 260

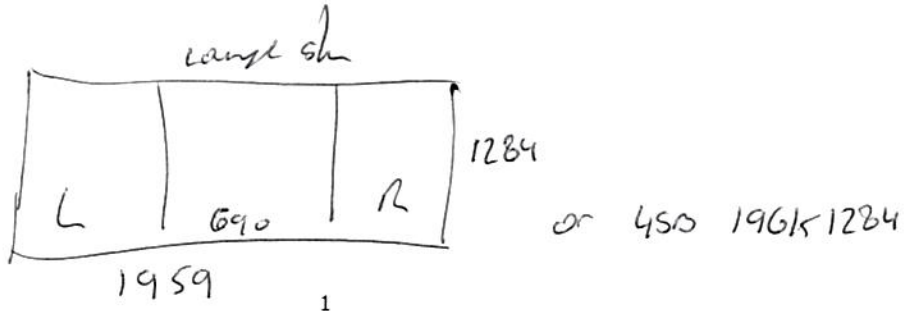

Upstairs

All four bedrooms - roller blinds for the windows (noting that one bedroom has two windows, we would want blinds measured for those too).

- for the master / smallest bedroom we will go ahead with roller
- for the other two bedrooms can you also measure for both Roman and Roller (the Roman blind style where it's bigger than the window) while we decide.

Thanks, and any questions in advance please let me know,  
Garry
