The best under the sun

### Fantastic views even in bad weather

When the pergola awning is retracted, there is no glass roof construction obscuring the sky and the view to the outside remains unobstructed.

### markilux shadeplus

The additional vertical blind integrated in the front profile simply blocks out low-lying sun and the glances of inquisitive neighbours.

### Closed full cassette system

The cover disappears completely inside the round cassette, Ø 187 mm, and is ideally protected. The only thing that is more impressive than the look itself is the fact that the technology works perfectly.

### markilux tracfix

One of many markilux refinements: the lateral cover guidance system that leaves no gap between the cover and the guide track. Gives an overall better appearance and improves wind stability.
