Hi Matthew,

Hi Matthew

Regarding the order you placed for the blackout rollers in the SIM Room. We have been informed by the manufacturer that we can't have two frames on one window and the window is too big for one single blind. The only solution would be for you to fit a wood beam the full drop in the centre of the window ^{that} so we can fasten the side channels onto.

If you can please let me know if this is possible from your side and we can organise a re-measure.

Thanks
Shawn Hanley
