

**Authorisation For Temporary Importation of goods from the Channel Islands
for repair and return**

The purpose of this document is to give Profreight / Condor Specific authority and approval to complete a Customs declaration on your behalf and as such DIRECT REPRESENTATION will be declared in box 14 of the Customs import entry.

The Channel Islands are outside of the EU, all goods being imported into the UK are subject to import VAT and Duty, for consignments that are being sent to the UK to be repaired then returned to the owner in the Channel Islands will be liable to VAT on deposit under Simplified IPR number IP/9999/999/99

To do this we will need this form to be filled out by the Importer they must also understand that they will need to have the carrier (who returns the consignment to the sender) declare to HMRC (at the port of export) when the goods are exported out of the UK and back to the Channel Islands, via the HM Revenue & Customs New Export System (NES)

If the NES entry is not completed when the goods are shipped back to the Channel Islands the Importer will become liable to all Customs duty and VAT held against the VAT paid on deposit.
