You have requested aluminium perfect fit blinds that are a nonstandard request for us due to their sizes 205mm x 265mm x 2.

This is below our minimum standard operation sizes and the blinds are likely to pitch and visually the ladders will be close together. Decora waives any responsibility for the functioning of the blind.

We can make these blinds once this waiver is signed.

Please be aware that Decora will not accept liability for any problems that may arise as this request is a nonstandard request. Please sign and return to accept liability.
