

10008 Hamilton

- Opened By-Pass Track (200mm double track), 4 Panel centre open FBBF. Inside Mount, with U bottom track and board.
- Track needs to be 5290 wide so that the Shutter panels can be concealed within pocket wall section to the side.
 - Shutter panels only need to cover the mid section = 3590
- Height 2170 TBC – I need to know the dimension for the top board (cannot see it on the spec) and the size of the top rail for the panels.
 - The customer wants the bottom of the top rail to cover the top of the window frame.
