Continuation

K Attendances to be provided free of charge by the Main Contractor:
 (Clause 11.1 for FM-BY-018, 019 or 005)
 (Clause 12 for FM-BY-020)
 (Clauses 3.16, 3.17 and 3.18 for FM-BY-011, 012 or 014)

- Providing and clearing away temporary roads and hardstanding for access to the works of heavy plant, materials, etc
- Use of contractors paths and pavings.
- Use of such messrooms, sanitary accomodation and welfare facilities as are provided on site.

L Attendances to be provided by the Subcontractor:
 (Clause 11.1 for FM-BY-018, 019 or 005)
 (Clause 12 for FM-BY-020)
 (Clause 3.16, 3.17 and 3.18 for FM-BY-011, 012 or 014)

All items required by the Sub-Contractor for the execution of the Sub-Contract Works and not shown above as being provided by the Main Contractor are to be provided by the Sub-Contractor. Such items will particularly include:

- Regularly maintaining a clean and tidy workplace.
- Segregating & clearing away to designated containers / disposal points provided on site all small items of general rubbish properly arising from the execution of the Sub-Contract Works.
- Clearing away off site all other rubbish (including excessive waste/surplus/damaged material) arising from the execution of the Sub-Contract Works.
- The provision and erection of all scaffolding and other access equipment for work at or under 3500mm high.
- The provision of all power required for the execution of the Sub-Contract Works other than that shown above as being provided by the Main Contractor. The distribution (leads, splitter boxes etc.) of all temporary power supplies required for the execution of the Sub-Contract Works.
- Unloading and distribution around site of all materials required for the execution of the Sub-Contract Works.
- Providing all power, water and fuel for testing and comissioning operations.
- Providing telephone, facsimile and other communication facilities on site.

M ISO Design Requirements:

It is a condition of this order that all design documents produced by the Sub-Contractor must fully comply with ISO 9001:2000 and that all design work includes the checking and verification of both the design any any revisions to it.

N Environmental Management:

All Sub-Contractors and Suppliers working on or supplying to SDC sites are required to have an Environmental Management System that is formally accredited to ISO 14001 or to conform to the SDC Environmental Management System. Sub-Contractors must ensure that their own Sub-Contractors and Suppliers also conform in this respect and that all site operatives have received appropriate environmental training.

O Waste Management Regulations:

Sub-contractors are expected to comply with the requirements of the Site Waste Management Plan of the site as follows:-

Continuation

O (cont) 1. All operatives and supervisors must attend the site inductions where the SWMP will be explained.

2. Collect up and store waste as required by the SWMP.

3. Where SDC are disposing of the waste then take any waste produced to the designated collection points. Where segregated skips/containers are provided then ensure the waste is placed in the correct skip/container. If waste is placed in the wrong skip/container this can result in increased disposal costs which will be charged to the relevant sub-contractor

4. Any sub-contractor who is responsible for disposing of their own waste will store it in the designated area(s) prior to collection. Before any waste is removed from the site the sub-contractor must provide the following information to SDC:

(a) the identity of the person removing the waste.

(b) the waste carrier registration number of the carrier.

(c) a copy of, or reference to, the written description of the waste required by section 34 of the Environmental Protection Act 1990; and

(d) the name and location of site that the waste is being taken to and the number of the licence the operator of that site holds under the Environmental Permitting (England & Wales) Regulations 2007, or if registered under those Regulations as a waste operation exempt from the need for such a permit then full details of that exemption including a copy of the notice issued to the Environmental Agency claiming that exemption.

(e) The Waste Management Action is as follows:

(i) re-used (and whether this was on or off site);

(ii) recycled (and whether this was on or off site);

(iii) sent for another form of recovery (and whether this was on or off site);

(iv) sent to landfill; or

(v) otherwise disposed of.

Forms are available from SDC that must be used to record this information.

P **Attachments to this order :**
