Ref: Roof blinds

Dear Virginia,

Further to our meeting on Friday I am pleased to submit the details regarding replacing your roof blinds as follows.

2 x electrically operated roof blinds finished with Basel Perla solar reflective pleated fabric inclusive of new 24 volt Somfy motors.
£1200.00

By using the existing motors a saving of £150.00 would be made, but as mentioned to you there would not be any guarantee on the longevity of the motors.

The existing transformer receivers and transmitter would be used, again we cannot offer any guarantee on these due to their age but feel they should perform well, if any problems arise with these items they can be easily replaced.

All figures quoted are inclusive of fitting and vat.

Delivery is approximately 4-5 weeks from receipt of your order with the installation expected to be completed withing 2-4 hours.

Our terms are 25% deposit when placing your order with balance becoming due upon installation.

I trust everything meets with your approval and look forward to your further instruction.

Assuring you of my best attention at all times.

Yours sincerely

HOWARD BAKER
