Subject: RE: Awning

Hi Krishan,

Hope you had a good weekend.

Please find attached quote for supplying and installing blinds to your home.

AWNING

1 x Fully cassetted awning, electrically operated by remote control @ 3.5m wide x 2.5m projection

OPTION 1 - Tortolla: **£2860.00**

OPTION 2 – Cuba: **£3300.00**

Optional wire free wind sensor: **£200.00**

Plus delivery and installation

Figures are inclusive of vat

I can look at the possibility of our supplier delivering direct to site.

We have used these awning suppliers for 30+ years. We rate their awnings as an excellent product. All the electrics we use is Somfy who are the leading supplier of electrical equipment for blinds and awnings.

The fabric is water resistant, which is treated with anti fade, rot and fungal treatment. The fabric is acrylic which is similar to canvas.

The awning will have two arms which is more than enough for the size of this awning, obviously the awning would need to be brought in with windy conditions.

Let me know if you would like any more information.

Many thanks
Ben
