Dear Weinor Partner,

Please note:

In case of a „no deal“ hard brexit potential tolls and import taxes become due. This fees and tariff rates will be invoiced to you direct by our certificated toll executing partner. Once this bill is settled you will receive your goods.

In any other case you will receive your goods as you are used to.

weinor GmbH & Co. KG

Our spoken and written advice focuses on an explanation of the best possible use of our products and services. It does not liberate you from the obligation to check fitness of our products and services for your particular purpose. That includes the inspection of the general condition and especially maximum capacity load of fixing base as well as forwarding all respective information in addition to your order to weinor. That way delivery of the correct type and number of brackets is guaranteed. If our product can not be used as upon agreement due to false or lacking information we or any auxiliary person do accept contractual or non-contractual liabilities only in case of malicious intent or gross negligence.

Attention! In case of missing specification regarding brackets we deliver the awning including the correspondent brackets for wall fixing on concrete C20/25 with a header cowling up to 200 mm (non pressure resistant base). Please note that those brackets are not suitable for wall fixing other than concrete C20/25.

In this case we extend the delivery period in order for you to check your specific application and if necessary hand in the required information.

In order to mount all brackets corresponding their fixing base you will need suitable mounting systems. For mounting on concrete C20/25 we recommend heavy duty anchor-systems from fischer (e.g. FAZ II M12/10 GS or FAZ II M12/30 GS). In case of mounting on any other base referred to in our pricelist or on frontal concrete ceiling we recommend the use of injection systems from fischer (e.g. FIS V 360 S). You can order them directly from us.

If you use a different mounting system or your own brackets, you will need a table of pull-out resistance of screw anchors in order to determine the working load.

This order confirmation is according to the current terms of payment and delivery.
