

## **110 Box**

SHY 3 section extruded aluminium Head Box 110 x 110mm. Compatible with C33 (33 x 28mm) side channels only.

## **Standard Zip-Grey (Blackout)**

Standard SHY ZIP in grey suitable for Blackout applications.

## **Rooflight Shelving**

It is recommended to build a shelf around the opening with deep cover at the box ends to hide the boxes, so the system can "sit" on and be squared up on the shelf. This will make installation faster, out of square adjustment simpler and improve the finished look of the system. This can either be our system at an extra cost, or something of your own design.

## **Radio Motor - Somfy (240V.AC)**

Fitted with 240V.AC Somfy Radio Motor (RTS) installed within the cloth roller. Complete with internal top and bottom limit switches, set and adjusted from the handset including one middle stop position. Handset is not supplied, please see "Additional Parts Available" for handsets, and control options.

## **Rooflight Shelving**

It is recommended to build a shelf around the opening with deep cover at the box ends to hide the boxes, so the system can "sit" on and be squared up on the shelf. This will make installation faster, out of square adjustment simpler and improve the finished look of the system. This can either be our system at an extra cost, or something of your own design.

## **FTS - Fabric Tensioning System - Somfy (240V.AC)**

The Fabric Tensioning System (FTS) is a two motor system that consists of an electronic control box linking the cloth and cable rollers, so the cloth will be drawn across the opening under low tension then applying tension when stopped to bring the cloth taut. Also available as an extra are switches, radio operation and other control equipment, see "Additional Parts Available" for handsets, and control options.

## **Please see attach your Quote**

Please see attach your quote any question don't hesitate to ask

## **Standard RAL Colours**

Powder Coating: Standard colours are White RAL 9910 (60-70% Gloss ) & Black RAL 9005 (60-70% Gloss.) All other RAL colours or finishes, will be at an extra cost. Should colour or finish not be held in stock, there will be an additional cost of £200.00 + vat to cover minimum order quantity of pigment.

## **Fabric Welding**

In response to the increased use of Low-E and other specialist glass, and in line with our policy of continuous product development, we are increasing our weld strength settings. This will not have any effect on the strength, integrity or performance of the base fabric or edge ZIP® However, the weld line will have more of a gloss appearance due to the increased heating.

## **Fabric Choice**

SHY (UK) has a wide range of sunscreen, dim-out and blackout fabrics within its range, many of which may be suitable for this project. Please do not hesitate to contact us to discuss your requirements in more detail.
