Hi Maud

As per our conversation on the phone below is an overview of what was discussed:

- We believe the inner rails have shrunk due to overheating in the very hot summer we had this year coming into the colder weather now.
- We will provide a fix by heat treating a new set of inners and E sections here and sending them to you to replace on site.
- I will raise the parts order for this today and will confirm an exact dispatch date as soon as I know but I cant imagine this being any longer than 2 weeks.

If you have any further questions or need any help at all just let me know.

Kind regards

Conor Byrne

Good afternoon,

I am contacting you in regards roof blinds that were installed in December 2019.

The zip keeps coming out of the side channel. Acting like the fabric shrunk, see picture an video attached.

Could you please advise?

Thanks a lot.
