Hi Fiona

That would be in interest provided it still has pull screens that can be fitted to the front & sides and as I said, manual louvres are ok. What sizes are available?

Kind regards

Ian

Hi Fiona

Do they do any other models with manual louvres? We would still want side panels but again these are fine manually operated.

Thanks

Good morning

Apologies for asking so many questions, we know that we want to do something to cover our patio but the problem is deciding what would be best long term. Back in 2019 you sent us a quote for a Renson Camargue louvred roof system (attached for reference), we dismissed this at the time as it seemed quite expensive but I note that it's for 2 units. Do you still do this product and what is the largest expanse that you can cover with just one unit?

Thank you

Ian

Subject: FW: Wienor Products - Awning and Glasshouse -SO11547

Good Morning Ian

We wanted to drop you a brief email to update you of a price increase which has been forwarded to us from our supplier Wienor.

They have instructed us that there will be 5% increase on all their items from the end of this month. (May)

This is due to increase in costs of materials and components world-wide.

Unfortunately, we will need to add this to your outstanding quotation. This will be added from the 1st June 2021.

Should you go ahead with the quotation before this date, the quote emailed over to you will still be valid.

We apologise for any inconvenience that this may cause, and we are forced into the position to increase the costs to our customer, this is out of our control.

I trust this is acceptable and if you have any queries please do not hesitate to contact us

Best Regards

Fiona
