

Milwood Order Form Simplicity Range

Please make sure to fill out the whole order form!

Customer Information

Order Information!

We pride ourselves on getting the job correct first time and delivered to you as quickly as we can.

We need our Trade Partners to give as much detail about the order as possible, so that we may achieve this. Any site surveys, or additional information which can speed up the process and improve the accuracy of the drawing will be greatly appreciated.

If the CAD drawing requires any amendments this **will delay the drawing and subsequently the order being delivered to you.**

Thanks!

Company

Order Reference *

Email Address *

Telephone Number *

System Delivery Address *

Please include all lines of address

Delivery Post Code *

Target Delivery Date

dd-MMM-yyyy

Please call in for current lead times and an ETA on delivery date - we will try to accommodate your required date as best as possible!

Sizes, Colour & Roof Choice!

Milwood Order Form Simplicity Range

You can find the pricing on the TPA, Alternatively you can phone in to request access to our quoting tool! Please note if price is not calculated, this will delay your CAD Drawing.

Order Date *

dd-MMM-yyyy HH:MM AM/PM

Terms and Conditions *

Milwood Terms & Conditions

By ticking the box you are agreeing that..

Once the CAD is approved by you the Trade Partner, you will be adhering to the below terms and conditions.

The product dimensions, colour, colour finish & glass/poly type will be final and no amendments to these will be accepted past this approval.

For any additions to the system that were not already included on the original order, please contact us no later than 10 working days before your scheduled delivery date so we can ensure they are included into this delivery.

In the unlikely event of any problems, issues or damaged components - please make contact with Production & Jobs In Progress via phone or email - please also note that we require pictures of the issue, to make judgement whether we deem the replacement free of charge or chargeable to you the Trade Partner.

Due to the circumstances that you may or may not have a depot to hold the goods upon delivery, please note that we require the order to be checked off within 24 hours of receiving delivery and any missing parts from the cutting list need to be raised with Production & Jobs in Progress in this period. We hold photographic evidence of each delivery, as soon as we receive notification of an issue we will check against these records and get back to you as soon as possible. After this 24-hour period the missing parts, if any, will be deemed chargeable.

Following your first order, you will be required to attend our Milwood Training Academy before installing your goods.

Milwood will not be held responsible for any fitting or installation errors.

For all first orders we require pro-forma payment to be made on CAD approval. If the pro-forma payment is not made, be aware that you may lose the scheduled date of delivery and the canopy will be delayed until this payment is made.

I accept the Terms and Conditions.
