Hi Simon,

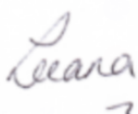

So glad to hear you have had a good experience and that pleased with product. I am sure it will have lots of use.

So sorry that we have had to replace some glass, this is already in hand and should be with us before 24<sup>th</sup> June so we could do at the same time as attending to give access to columns.

Please let us know how your meeting on 16<sup>th</sup> goes and if you need any input from us.

We will email you maintenance documents etc for your records, but in meantime please let us know if we can help in any other way.

Kind regards

Leeana Taft

**Subject:** Le Chalenet - Renson installation; next steps

Good morning Leeana and Scott

I wanted to follow up on the above noted installation.

First of all, and to follow up on my comments to the team yesterday, my thanks go to the team for their work and time spent at the house. They were very friendly throughout and showed me all the features before departing.

Thank you also to you both for the clear and timely communications spanning the process.

There are (as I suspect you will be aware) a couple of follow up points I can think of:

1. One of the doors smashed on lifting out of the container. Could you please keep me updated on expected delivery/installation of the replacement.

Do you think it will be here before this Autumn ?

2. Technology installation. On the morning of Thursday 24 June Genesis AV are due to install speakers on two of the Renson columns. I know there is power cabling already inside the unit but I understand someone from CP will need to be here to open up the columns for cable access.

There is a preliminary Genesis site visit on 16 June to assess the situation.

I propose to let you know the outcome of the preliminary visit, but if you could note the 24 June date in the diary that would be much appreciated.

Thank you

Kind regards

Simon
