Thank you for your enquiry and we hope you will find this quotation acceptable. Should you require any further information, please contact us.

Yours sincerely
Fiona

To accept the above quotation, please indicate which option is required, sign below and return this letter together with your deposit. Please note extract of our terms and conditions below.

.....
SIGNATURE **DATE**

Please note: This quotation is only valid for acceptance for 7 days. Our estimate does not include any electrical work or additional carpentry work to install the above unless otherwise specified. Please note there is a handling charge on customer own fabric of £5 per metre. Due to high costs of labour, pre-arranged missed fitting appointments will be charged on a time-wasted basis. Settlement is due on completion of works and an administration charge of £25 will be added per month if unpaid within 30 days. We reserve the right to charge for design, advice and liaison work carried out should an order not be placed. Goods remain the property of CP Interiors until full settlement is received. Should payment not be received we reserve the right to attend premises during working hours to remove goods and not be required to make good. Our full terms and conditions apply and are available on request.

- Call us and pay by Card, we accept card transactions over the telephone and we will not charge you a handling fee.
- Bank details: Natwest, Sort Code 60-12-03, Account No 66577772

If you pay your deposit by BACS payment, please confirm the details of your order by returning a signed copy of this letter

Hi Fiona

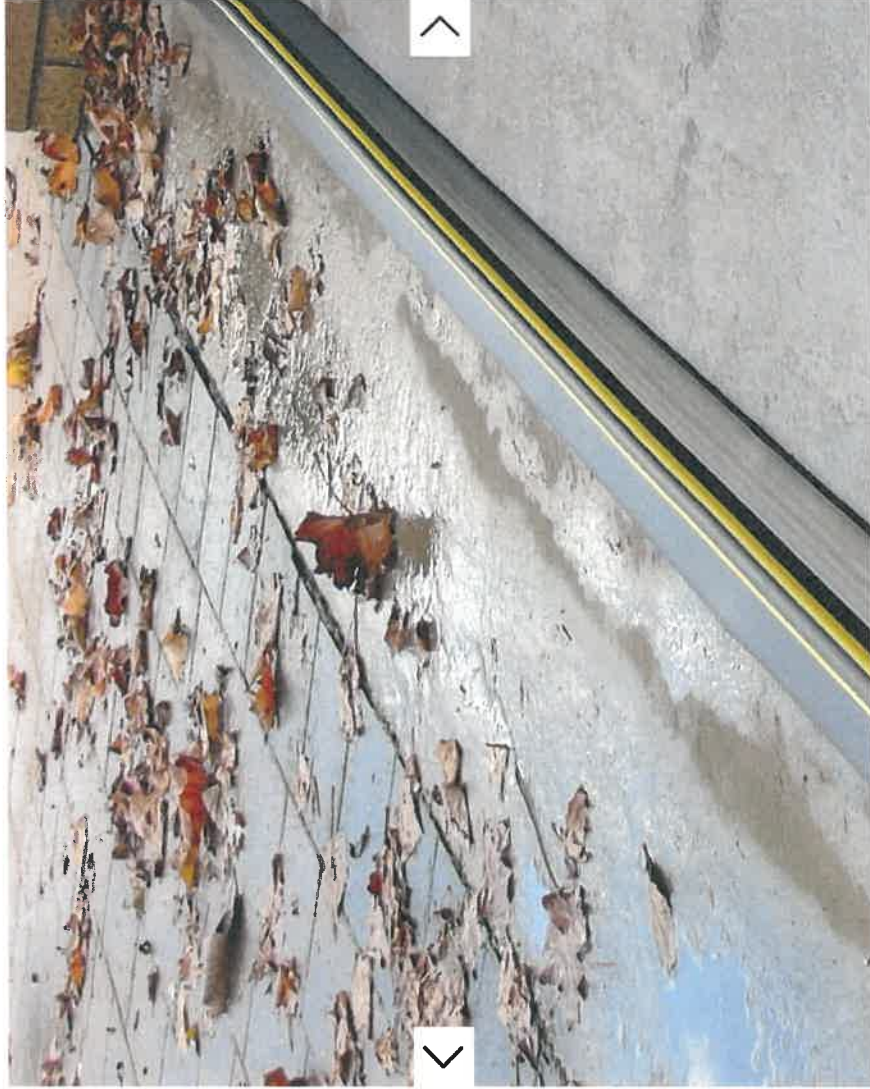

Sounds good although I only need an 8ft Strip.

Many thanks

Sylvia

The Adhesive

We have developed the ideal adhesive & sealant for use with our threshold seals. Garadry MS-Polymer adhesive has been formulated to provide an excellent bond with the floor and keep the threshold seal securely in place. This allows you to drive over the threshold seal safely.

The adhesive is applied to the floor in two parallel lines along the entire length of the installation area with a third unbroken zigzag line of adhesive between them. The threshold seal can then be positioned in place and pressed down on the adhesive to create a strong and watertight bond between the threshold seal and the floor.

Resistant to temperatures between -40°C and +90°C, Garadry adhesive & sealant is designed to work in almost any environment from sudden cold snaps to summer heatwaves.
