FAO Chelsea.

As previously discussed, please find attached docs for all romans in Romo Forenza Tapestry on this order SO12608 GERMAN

We would like the overall waterfall stack to be something like the below. As follows completed stack between 320mm – 350mm high. Around 40mm between each flap.

These roman blinds are to be FAUX.

' have specified 1400mm on the drops but this is just the height of the fabric which is to be railroaded please to make the most out of it.

Attached is some images from our workshop which shows an example of what I am looking for.
