That's brilliant thanks Rachel. We'll go for A3-869 with 90147 please.

How would you like us to pay the deposit?

Kind regards,

We'd like to place an order before the end of December to avoid the price increase. Could you confirm the price please for Awning, Opal design II full cassette electrical operated awning, with vibration sensor, powder coated frame etc. W4m x 3m Projection. Including remote control. No goalposts needed! Not sure yet when the wall rebuild will be completed - what is the delivery lead time?

Many thanks, kind regards,

Tim Marlton

Hi Adrian,

Thanks for this, I will discuss with the builder. Where would be the best location for the electric supply – I assume a weatherproof 13A socket would be appropriate?

Kind regards,

Tim Marlton

Subject: Awning

Hi Tim

Ok, we have info from Germany.

If the awning is to stay the width quoted, at 5000 mm wide the brackets will be sited 400 mm in from each end.

The mounting height would be 3000mm

I hope this is sufficient,

Any questions please ask, or as mentioned , I can pop to site once work has commenced.

Many thanks
