Hi Will

Please can you remove the Valance from the order, and adjust the quote accordingly.

Many thanks

Hi Will

Ok we have the go ahead for the broad street awning. Fabric as previous king street order , no signwriting.

Just to double check, we have a preinstalled box in the shop front.

Internal dims are as follows

120 mm high vertically, 150 mm depth and 5800 mm wide from internal cheek to cheek.

Off set from the window frame to the front lathe is 90 mm

The left to right off set for the arms would be 50 mm in bound , if that makes sense.

Many thanks
