Hi Eliza,

Following on from our meeting with your colleague this lunchtime I would like to confirm that my son James would like the following specification in his Horizon apartment:

Horizon S709

Graphite fabric with white headrail in all 3 rooms (No fascia's).

My other son Robert confirmed the following during the meeting:

Horizon S509

Graphite fabric with white headrail (No fascia) in Bedroom 1 (en-suite).

Parchment fabric with white headrail (No fascia's) in Bedroom 2 and Living Room.

There is no need to send over any further links or photos as I had a brochure at home to show James how the Fascia looked.

Please would you confirm receipt of this e-mail.

Many thanks for your help,

Nick.

Dear Mr Duckett

I hope this email finds you well.

As your apartments are nearing completion we will be placing the order for your blinds soon.

Before we proceed, please could you confirm your fabric and fascia colours? I have attached photos of the options.

We currently have noted on file Parchment fabric with Anthracite Grey fascias for all blinds in both apartments.

These fabrics cannot be classed as blackout however the darker fabrics (Graphite and Pewter) are better at dimming the room, anything lighter is not as affective.

Feel free to pop into our showroom before making the final decision, we have an allusion blind on display in Graphite with an Anthracite Grey fascia.

Many thanks,
Eliza
