Hi Scotty,

You would have to send the tracks back yourselves, the cost to cut them down would be £30 + Carriage + 3.5% + VAT.

Hi Phoebe

My servicing manager has advised we cannot do it here so I guess the last option is sending them back to have them altered.

Please may I ask the cost of sending them back to alter to size?

Hi Scotty,

We always set the motors up here as there is a certain tool that you need to be able to do this. It is not like the louvolite motor than just be swapped. Have changed a benthin motor before?

Hi Phoebe

I forgot to say – we have motors already and can change them over.  
Can you provide me with just the head rail prices please at 1000mm width?

Would this be ok?

Thanks  
Scotty

Hi Scotty,

Unfortunately we do not have any instructions on how to do this as we do have specific tooling. Please be aware if you do decide to cut these headrails down yourselves then the warranty would be voided.

Alternatively if you would like to send the headrails back to us we can cut them down in the factory for you, if you would like a price for this please let me know.

Kind Regards

Good Morning Tropical

We required a bit of help relating to the order below.

We have ordered the vertical head rails (motorized) and need to reduce the size by about 80mm.  
We would like to cut down but are unsure on whether we can do this.

Is this advisable? Do you have any information or guidance to advise if this is possible?

Many Thanks
