Hi Scotty,

When convenient please send someone to sort:

main curtains in master - think adjustments need to be made with hanging as currently although love them, they look very messy when open, thin they just need re hooking on? and not sure the electric runner is working as well as it could be probably because of this, it is a bit crunchy
Need to change lead runner to straight!

blinds in master - fabric runs different directions across the two blinds, this was something discussed in SR that we wanted to avoid as very noticeable. white plastic chain snapped will need something stronger for weight of blind
got photos Remake requested
Not really happy with the size of the gap between the two blinds is there not a more streamline joiner bracket that can be used?
Is there a way we can put a stopper on the rollers so children dont run them down too long?

Kids rooms
Need to remove velcro from 1 other room
Blind and curtain combo looks great
Curtain doesnt have enough room to clear the blind pelmet though so children cannot close curtains, we have to by pulling out on angle higher up - think solution could be to fix blind pelmet more snug than currently as we are talking mm.

Conservatory existing Blinds ✓ *= 1hr. Spent setting =*
It was agreed these could be made good best they can - base of blinds inset in conservatory need attention - there are 8 blinds, would be good to go ahead.

We are awaiting the box pelmet adjustment in the flat before final roman can go up and the wall to be rendered on glass box before final touch.
Concerned the blind that has gone up has flaw in fabric.

Need to get additional white curtain pole for snug please - however i wanted one pole rather than two joined in the middle if possible

This invoice was chased by you and I settled, but there are several small issues that do need attention. Please liaise with Paul
• She has roller she wants to fit in laundry.

MT

Alana

*• Roman in flat = Pull/Stub on fabric.
= Rachel thinks we can sort =*
