Hi Tamara,

Thanks for coming back to me so quickly.

We would definitely go with a fitter for final measurements to be sure we have the right size on order 😊

Here are the measurements, I have indicated where we would opt for a tier on tier but I'm happy to have the estimate for a full height shutter and we can refine the details at the fitting stage.

I'm also happy to be led on which material we should opt for in each room. We are looking at affordability over everything else at the moment so we are happy to look at the cheaper end of the scale!

We have a kitchen door with 2 glass panels and we think venetian blinds may be better here, if possible could you quote for these too please. I have popped a picture of the door below.

Thank you 😊

Bedroom 1 full height

Window 1. 1280mm wide 1310 high ✓

Window 2 885 wide 1270 high ✓

Bedroom 2 tier on tier

Window 1. 1270mm wide 1290 high

Bedroom 3 full height

Window 1. 1270mm wide 1280 high

Bathroom tier on tier

Window 1 665 wide 1075 high

Downstairs toilet full height

Window 1 680 wide 1080 high

Lounge full height and bi-fold

Window 1280 wide and 1295 high full height

Door. 1770 wide and 2120 high bifold - whichever range matches best with the Seattle shutters.

Kitchen

Window 1 875 wide 1290 high tier on tier

Window 2 1250 wide 1070 high full height

Kitchen door - perfect wood fit venetian blinds in colour to match shutters. *CAN ONLY BE ALUMINIUM*

Panel 1- top panel 535mm wide 890 high

Panel 2- bottom 535 wide 575 high.

Hi Claire,

Thank you for contacting us.

We can definitely provide an estimate for you based on the sizes you provide but please note that these prices will vary not just based on the size but also the type of frame, etc.. This is the reason why we strongly recommend a visit from our measurer to advise and take the final measurements.

This is the link to our supplier:

<https://www.s-craft.co.uk/shutters/>

Please have a look and let me know what type of shutter you would be interested in. Our standard one is the full height, but our measurer could discuss other options with you.

I hope this helps but please do not hesitate to contact us should you have any other questions.

We are looking forward to hearing from you.
