Hi Scott,

they can be supplied, but I need to order then through a service request. Therefore I will need to original order no.

Also, you are requesting 68 pcs, is this correct?

Hi Tina

Ben has said it is relating to the model of unit we had.  
We dismantled and will be re constructing around April/May so will require the identical parts as damaged during dismantle process as per the drawing

Please can you advise if these can be sent?

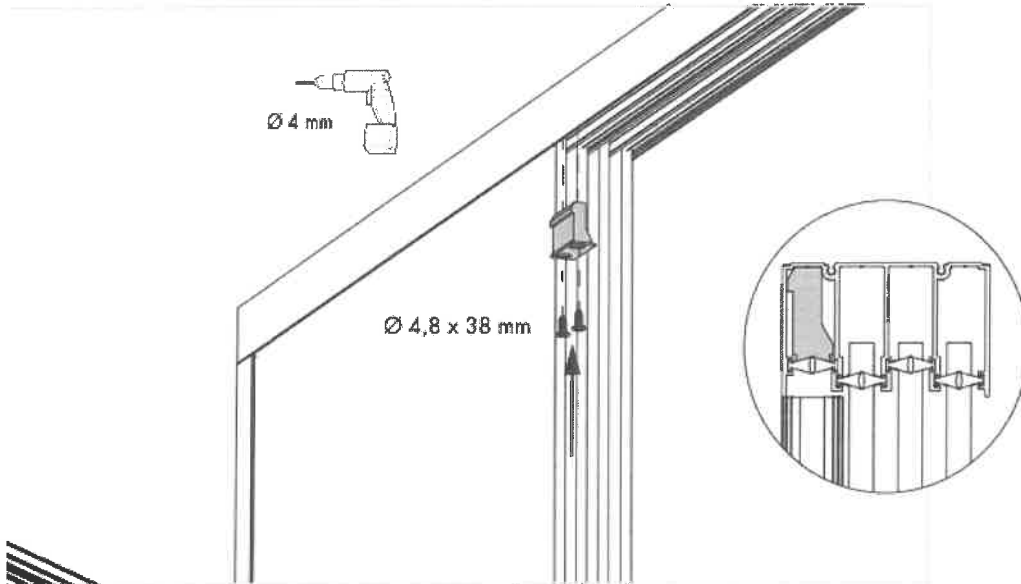

Thanks  
Scotty

Hi Scott,

it seems the drawing you sent me is not the updated version. The stoppers are not placed on the top instead.

Hi Tina

Thanks – we have reviewed all of the drawings and also in the catalogue, there are no part nos .. we have tried finding on Rio but we have the photos of the pieces we require from the catalogue (there were no part nos labelled) It is for the Algarve

Please see below the photos we require with a description of what it is and how many we require, if you can please find part nos to advise for RIO and or order on our behalf that would be great please.

x 8 of these gutter corner pieces (x 4 with outlets, x 4 without outlets)

X 68 of these pieces – we think they are called glass door fix blocks, for the bottom rail

Please can you help with this?

Thanks  
Scotty

Attached, please find parts and profiles.

For complete sets of hardware, it can be configured in RIO under Glass Sliding Panels. For replacement parts for already delivered items, they can be ordered as service parts via Service Request in RIO.

If not all item numbers are available in RIO, kindly send me an email with the required part no. and quantity, and I will make a quote for you.
