.....
DATE

Please note: This quotation is only valid for acceptance for 7 days. Our estimate does not include any electrical work or additional carpentry work to install the above unless otherwise specified. Please note there is a handling charge on customer own fabric of £5 per metre. Due to high costs of labour, pre-arranged missed fitting appointments will be charged on a time-wasted basis. Settlement is due on completion of works and an administration charge of £25 will be added per month if unpaid within 30 days. We reserve the right to charge for design, advice and liaison work carried out should an order not be placed. Goods remain the property of CP Interiors until full settlement is received. Should payment not be received we reserve the right to attend premises during working hours to remove goods and not be required to make good. Our full terms and conditions apply and are available on request.

As we no longer accept cheques, please do:

- Call us and pay by Card, we accept card transactions over the telephone and we will not charge you a handling fee.
- Bank details: Natwest, Sort Code 60-12-03, Account No 66577772 Carpet Protection (C.I) Ltd T/A CP Interiors

If you pay your deposit by BACS payment, please confirm the details of your order by returning a signed copy of this letter

SHY® ZIP® - Electric Rooflight

SHY® ZIP SCREEN® Electric Rooflight Blind System, consisting of two square head boxes one containing cloth roll and one containing Conston tension spring units with ZIP side channels to the sides. Cloth to have welded SHY ZIP fastener, enabling cloth edges to be held captive within the side zip channel. Blind will open and close normally, without pulling free of the side channels.

150 Box

SHY 6 section extruded aluminium Head Box 150 x 150mm. Compatible with C33 (33 x 28mm) side channels only.

Standard Zip-Grey (Blackout)

Standard SHY ZIP in grey suitable for Blackout applications.

Rooflight Shelving

It is recommended to build a shelf around the opening with deep cover at the box ends to hide the boxes, so the system can "sit" on and be squared up on the shelf. This will make installation faster, out of square adjustment simpler and improve the finished look of the system. This can either be our system at an extra cost, or something of your own design.

Radio Motor - Somfy (240V.AC)

Fitted with 240V.AC Somfy Radio Motor (RTS) installed within the cloth roller. Complete with internal top and bottom limit switches, set and adjusted from the handset including one middle stop position. Handset is not supplied, please see "Additional Parts Available" for handsets, and control options.

Standard RAL Colours

Powder Coating: Standard colours are White RAL 9910 (60-70% Gloss) & Black RAL 9005 (60-70% Gloss.) All other RAL colours or finishes, will be at an extra cost. Should colour or finish not be held in stock, there will be an additional cost of £200.00 + vat to cover minimum order quantity of pigment.

Fabric Welding

In response to the increased use of Low-E and other specialist glass, and in line with our policy of continuous product development, we are increasing our weld strength settings. This will not have any effect on the strength, integrity or performance of the base fabric or edge ZIP®. However, the weld line will have more of a gloss appearance due to the increased heating.

Fabric Choice

SHY (UK) has a wide range of sunscreen, dim-out and blackout fabrics within its range, many of which may be suitable for this project. Please do not hesitate to contact us to discuss your requirements in more detail.

The details below represent the information we hold on your enquiry, that unless you have asked otherwise, will be our default value for this situation. If you are not sure of this information is not correct, please ensure this is corrected when you place your order, otherwise we will manufacture using the information below.

SHY® ZIP® - Electric Rooflight
