Hi Iain,

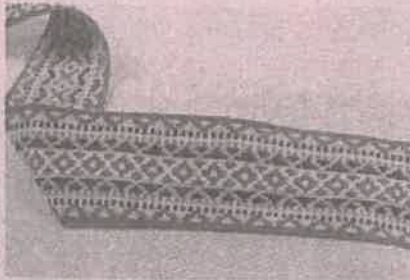

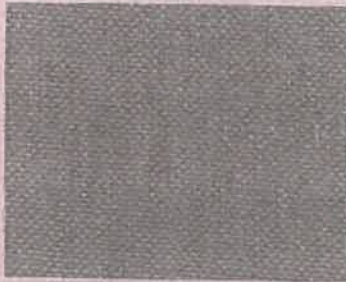

I have just got all final details for your quote so please find attached quotation. All Romo samples and braids have arrived; the other samples unfortunately have not (should be here hopefully today or tomorrow as were posted end of last week). Got the foam samples too in 3 different heights 👍

Adrian has also asked me to quote in the hydrophobic foam to allow quick and easy water drainage which is slightly more pricey however does allow quick and easy water drainage should they be left out (and no wet bums)!

Hi Roger,

This is the sort of look they are going for with the seating. Mixture of scatters, some plain, some fringed, some piped and some with braids. Some square, some rectangle etc.

If we say a mixture of 15 cushions might be easier to quote for and I can work out how much fabric.

If they accept the quote I will give you a detailed moodboard of exactly which cushions are which and require trims etc but if you could generically price for something like the below that would be great.
