Yes, something like that. But that said one of the curtains was less over size than the other one, so really not sure.

Let me speak to the customer as they will need to be without the curtains for a while.

Thanks

Can you advise on the below ?

Warm Regards,

Donna

Hi leeana

Sorry I have not replied sooner as I've been unwell

I would like someone to come round to see curtains and how they run (not very well) and to discuss them being cut to size and hung in the right position please .im not moaning it's just teething problems when the tracks were fit the screws were screwed into place the track has been notch by the fitter and the curtains do not run smoothly they sometimes stop or catch then judder we haven't used them for a couple of months so I need to show someone please

Kind regards Karl

Hi Karl,

I was called to discuss how you want to sort your curtains. We talked about making new single ones and using these curtains elsewhere?

Did you want to do that? Also, I believe you have a fabric book of ours, perhaps we could collect and measure the windows you were thinking of.

Please come back to me and copy Rachel and scott in too.

Thanks
