**In accordance with weinor's General Terms and Conditions of Delivery and Payment, you as a specialist partner are obliged to check whether the delivered goods are complete and undamaged. At the very least, you should ensure that the cartons are complete and undamaged from the outside. This does not relieve you of the above obligation, but it makes it easier for you to detect irregularities. Only if you have the defect confirmed on the delivery note upon receipt of the goods can we grant a refund if necessary after checking the transaction.**

#### Note:

- There are two lengths for the cover profiles above the plaza vivas, one is 5380mm long and the other is 5330mm long due to the different width Duofixs. We will send the longer profiles so please make adjustments on site if necessary.

Dear Sir or Madam,

due to the fact that weinor does not provide assembly nor knows about and / or analyses local conditions it is the retailers responsibility to consider the snow load according to the assembly site.

Please make sure to apply the respective national regulations DIN 1055-5 [2005], Ö-Norm B 1991-1-3:2006-04-01 [April 2006] or SIA 261:2003. Being retailer and partner of weinor you are entitled to decide on the type of patio roof suiting the local conditions. Use additional posts and specific material to increase the possible snow load. Please see our price list for snow load for further information.

If applicable we recommend to do a static test. Please make sure to know the current local snow load regulations before mounting our products.

In case the cooperation of a weinor staff member is enlisted, this has a consulting relevance only. It is not replacing the responsibility and activity of the specialist engineer according to VOB at any stage of order processing from survey to final acceptance. The ordering specialist contractor remains responsible for the taken measurements and checking of the order confirmation.

Our consulting service in spoken and written aims to achieve to explain the best possible application of our products and benefits. Thereby you are not relieved from your obligation to assure yourself of the applicability of our products and benefits for the intended purpose.

In particular this concerns the inspection of the general characteristics and especially of the bearing strength of the fitting surface as well as the transfer of all information in this regard to us together with the order.

Only by this it will be guaranteed that all the necessary technical premises for this building element will be complied with.

In addition, our General Terms of Delivery and Payment as per 12/2021, published under the link provided below are valid and we are happy to provide you with them free of charge upon request.
