<b>HOOK HEIGHT EYE DROP</b>				
<b>TRACK SIZE</b>	900mm			
<b>OVERLAPS &amp; RETURNS</b>				

**ADDITIONAL INFORMATION:**

SHALLOW SINGLE PLEAT, 8cm pleat circumference (4cm projection). Our track size is 300+300 on a right angle corner but we have allowed 900mm to accommodate some gather when hung. Please make with an odd number of pleats so we can get 1 pleat to sit on the corner. We have a little bit of wiggle room as the client wants them slightly gathered. These are to match existing order back in December. Fabric wise, originally there was 2 of these curtains with 9m required for both however the client wants to trial one first. Sally amended quote for 1 which means 6.1m required because the other half width was to be used on the other curtain. Please keep this additional half width of fabric AT PREMIER CHOICE because it is likely the client will be going ahead, so we will order a further 3m to complete the second one when ready, as there were 1.5 widths in each. PLEASE CALL ME IF YOU ARE UNSURE.

URGENT: Most important to be made pre xmas

NOT AS URGENT  
 Romo have made mistake with fabric so please make the top 4 lines with fabric that has been provided already and ignore the labels they have put on the delivery (says for family room/guest bed) as these are the least important rooms. Have asked Romo to send everything they have in that batch to ensure we can complete Master Bed, Bed 2 (boys bed), Bed 3 (boys bed) as a matter of priority. If you have enough fabric to make the guest bed or family room from what you have leftover, then please do. If not, Romo agreed to collect fabric leftover and will send out fabric from new batch to complete these. Please do not start guest bed or family room if you do not have enough to complete it as Romo will not be able to provide matching batch to finish it.
