Hi Tamara,

No problem, we will wait to hear back from you.

Just regarding your previous email, we could make it as a standard AO10 with pull cord operation, but we will most likely need to attach a stell rod to the back of the bottom bar to add enough weight to make it drop to the requested drop. This would be confirmed during production.

The issue of doing it as an AO10, it that the wider blind is too wide and it would need to be made as an AU10, so there would be two difference system, which I assume will be in the same window.

Kind regards,

HEADRAIL SIZES ~~FOR~~ ON BACK  
of print.

Tina reckons it could be fitted outside the recess box to gain the extra mm needed for Smartcord.

I have explained the gap between the window and the blind will be bigger so it will allow more light in.

Hi Duarte,

I hope you are well.

Would you please be able to advise regarding the size of a Duette AU10 headrail? We want to place an order for two that would be fitted on a corner, so we want to make sure we make the right deductions. Many thanks.

Kind Regards
