SCOTT RUDERHAM

Afternoon John

Can you please confirm that the goods were delivered today to my client in Castel?

Many Thanks,

Scotty

Subject: RE: WEINOR LIMITED

Hi John

Yes – that works.

My client is in London but I just phoned him and he said can you please deliver tomorrow.

He has asked if you can leave the goods in the ‘tack room’ which is in the corner of the stables, please!

Note:
 The drive end positions are preset at the factory to a centre position. Delete this
 presetting after installation. Please note the drive manufacturer's enclosed instructions.
 Adjust the drive end position correctly on site!
 Caution! When setting the end position, make sure that the lower end position is not
 exceeded, as the fabric from the roller tube can become loose and can be damaged in
 this way!
 Collection : screens by weinor
 real-design : WET-210 charcoal-charcoal
 The Serge 600 and Serge 1% fabrics meet the European standard EN 13501, Class
 C-s3d0, which stands for low flammability and can therefore be classified as safe.
 According to the manufacturer Copaco, the fabrics may not meet the German B1
 standard according to DIN4102-1 or the French M1 standard. However, they recommend
 that the goods should be used if German B1 conformity is not absolutely necessary.

Vordersette Tuch : Konfektion 1
 cloth type : made without seams
 Cardboard container : edges reinforcement
 weight : 39 kg
 Small folds and / or cross marks can appear on the fabric during manufacture, transport
 or on the construction site.
 You can carefully remove these with an industrial hot air dryer.
 To do this, set the hot air dryer to max. 250 ° C. Keep a distance of at least 100 - 150 mm
 from the awning cover and swivel the hot air dryer.
 This prevents the fabric from overheating or being damaged.
 We use the Steinel HG 2120 E hot air dryer at a medium level and can recommend it.
