To: Rachel Baugh	Date: 4 <sup>th</sup> September 2025
Company: CP Interiors	Tel No. 01534 768141
cc: Kirsty Losinsky (Area Sales Manager)	Pages: 2

Project Reference: Makai

Our Reference: PQS0577 REV E (**please use this ref when communicating with Renson**)

Dear Rachel,

Further to our recent communications, we have pleasure in submitting our quotation for supply only of Renson Icarus materials as per the following details:-

**Areas Included:**

Area Ref.	Quantity	Width (mm)	Projection / Height (mm)	Number of Blades
West	1	16500 (internal) 20000 (external)	Approx 1050mm (TBC)	4
South	1	7700 (internal) 10000 (external)	Approx 1460mm (TBC)	6

**Finish:**

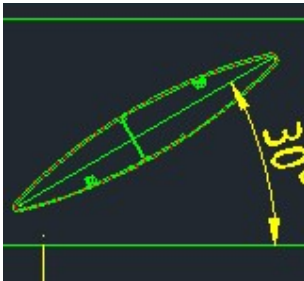

Standard range polyester powder to an average of 80 microns (non-metallic)  
 We are not able to obtain a marine guarantee due to the proximity of the shore line

TITLE: FOR-048 Icarus Cassettes Quotation Form			

**Included:**

- Steel knife brackets @ approx 1112 mm long & 1 specialist corner bracket (detail to be confirmed)  
Supplied loose with thermal pads
- Aluminium End Cap Plates 6mm thick  
Made to measure (detail to be confirmed)
- Blade Type ICA.200 @ 30° (pitch to be determined)  
In high quality aluminium AlMgSi0,5  
Delivered cut to size

Blades are supplied in a cassette format where blades are supplied cut to size and held by screws between 2 no end plates. These cassettes are then to be fixed to knife brackets. It is anticipated there would be 14 No cassettes in total.

- Fascia profile and fascia fixings  
To be supplied loose and cut to size for site fixing

**Nett Price - £13,259.00 exc. Vat.**

**Remarks:**

Sizes are approximate only and based upon the information supplied in your enquiry.

Cut sides are Powder Coated.

Drawings: when the materials are ordered, if required an AutoCAD drawing of the project can first be made by Renson, containing all the necessary constructional details. Only after approval by the client of these drawings / details will Renson start production.

**Wind Load:**

The client is to provide a suitable support structure taking into account our maximum span capabilities are

- Max span of cassette: 2276mm

- Projection: approx 1460mm from front face of building + 270mm wall cavity.

These calculations are based on a Wind Load of 1.8N/m<sup>2</sup>. Should these details be subject to change, we reserve the right to revise our quotation.

**Transport:**

Is not included. Availability on request.

**Not Included:**

Installation, stability calculations, measuring or other assistance on site.  
Fixings, bolts and plugs for mounting the Brackets onto the supporting structure.  
Notching, non-standard pressings/flashing

**Lead Time:**

Production time is currently estimated at 6-8 working weeks after approval of Renson drawings which are currently at 2 to 3 working weeks.

Yours Faithfully

**Renson Fabrications Ltd**

**Technical information on website**

For more technical information, data sheets etc: refer to the brochure "Architectural Sun Protection" on our website [www.renson.eu](http://www.renson.eu)

Orders will be accepted by us on Renson terms and conditions. Vat is not included. Prices are nett and fixed for 30 days from the above date. Alterations and amendments to the information provided will result in a new price offer being raised. Acceptance in writing of this new price offer will need to be received from you as authorisation to proceed. Delays in receiving the acceptance of new price offer may affect your overall delivery date. Only the articles as described under « Included » are included. Production will only start from the approval date of all technical details and Renson drawings. When drawings are required the customer will provide Renson with digital working plans. Renson references need to be clearly indicated in view of the validity of Renson offer. When the order remains at a Renson warehouse after the standard delivery time, Renson will charge storage costs after 1 week at a rate of £50 per crate per week. E&OE.
