**Notes**

Line Items 1  
 Railroaded fabrics may curl along the edge of the shade. Selecting a railroaded configuration indicates acceptance of this aesthetic condition.

A shade of this width may exhibit certain flatness aesthetic characteristics such as waves, vees, baggy corners, and/or wrinkling on the tube which may result in permanent damage to the fabric panel. Please see the Shade Aesthetics Guide for more details, and consider increasing the tube diameter, adding a batten, and/or splitting the shade to minimize these aesthetic characteristics.

Please be advised that at least one of the selected fabrics contains fiberglass, and as a result, may be susceptible to edge fray. Please refer to Lutron Application Note 411 for more details on managing edge fray. [http://www.lutron.com/TechnicalDocumentLibrary/048\\_411.pdf](http://www.lutron.com/TechnicalDocumentLibrary/048_411.pdf)

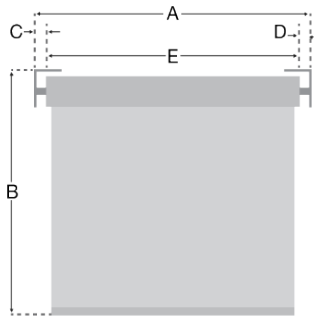

This fabric is not available for sale on shades to be installed in the State of Massachusetts.

You have selected a sheer/screen fabric. Note that when used with a welded hembar style, the overlapping/welded area may manifest visual characteristics created by layered patterns.
