Dear Leeana,

Thank you for choosing DEANS for your estimate. Below you will find a description of our proposal for the above site.

To supply exworks **2no. Deans Traditional Awnings**, awarded BBSA industry award for excellence in 2022. Awning construction as follows:

- Handmade timber enclosure in 1st Grade Harvested Red Grandis hardwood *, incorporating:
 - Routed drip rails in front lath and lip to prevent ingress of water (Awnings over 5m wide are liable to deflection)
 - Integrated angled top timber to enable rain to run-off and maximise longevity
 - Integrated colour-coded valance rail (where applicable)
 - Unique pitch design for water run-off
 - All timberwork hand painted or stained to specification
- Awning projection - 1200mm
- Custom steel arms fabricated with steel pivot fixings**
- All metalwork powdercoated to RAL colour of your choice, superior to painted finish for:
 - Superior colour retention
 - Resistant to weathering, corrosion & fading
 - Non-hazardous to the environment (no solvents used)
- Stainless steel galvanised storm chains are fitted for additional security.
- Fabric cover in 305g solution dyed acrylic canvas. Colour TBC***
- Optional fabric valance – 200mm (scalloped or straight).
- Action - Manual spring assisted roller operated by a pull-down plate and pole
- Link to website product information [here](#) / Link to technical brochure in PDF format [here](#)

FOR THE SUM OF£5,695.50 plus VAT (inclusive of a 25% trade discount)

PAYMENT TERMS:

50% deposit with order, balance prior to completion.

This quotation is valid for 3 months from the above date.

Our standard lead-time for all products is 6-8 weeks from confirmation of all details. Due to high demand all lead times are subject to change daily. For the latest lead times on your product please check with your consultant before making your order.

This quotation is subject to a site survey.

*All timber used by Deans is from managed forests (registered and harvested) and is FSC or PEFC certified. Timber painted in the colour of your choice using environmentally friendly water-based paints.

**Deans carry out all steel fabrication internally with use of no pre-fabricated, moulded parts.

***Fabric manufactured with SNC coating making it extremely resistant to dirt grease and other pollutants.

Exworks:

It is the customer's responsibility to:

1. Provide the necessary measurements required for manufacturing Goods*
2. Survey and prepare the Customer's premises for the supply of the Goods*
3. Ensure any structure upon which the Goods are to be installed are structurally sound and suitable for the installation of the Goods*

**Deans Blinds and Awnings shall have no liability for any losses suffered or costs incurred as a result of the Customer's measures, survey and/or premises not being suitable for the Goods.*

Exporting:

Please note that all import taxes, duties, custom payments, licenses, and any other associated fees or charges imposed by governmental authorities in the recipient's country are the sole responsibility of the client. The quoted price does not include these additional costs, and the client is advised to inquire with relevant authorities regarding such obligations. Any fees incurred due to non-compliance with import regulations are the responsibility of the client.

Products/installations comply with safety aspects with European Standard **EN13561**.

Deans are licence holders for the disposal of non-toxic waste and any items removed from site will be disposed of appropriately.

Deans Blinds are accredited holders of the CHAS (**Contractors Health and Safety**) assessment certificate.

Dean's employees are all trained to be qualified under the **Investors In People** award approved training system.

Terms & Conditions: <https://www.deansblinds.co.uk/terms-conditions/>

We hope the above meets with your approval and look forward to hearing from you.

Yours sincerely,

William Peck
