<b>Subtotal</b>	<b>£ 11,610.00</b>
<b>GST</b>	<b>£ 580.50</b>
<b>Total</b>	<b>£ 12,190.50</b>
Paid amount	£ 4,876.20
<b>Total amount</b>	<b>£ 7,314.30</b>

Please note: This quotation is only valid for acceptance for 7 days. Our estimate does not include any electrical work or additional carpentry work to install the above unless otherwise specified. Please note there is a handling charge on customer own fabric of £7.50 per metre. Due to high costs of labour, pre-arranged missed fitting appointments will be charged on a time-wasted basis. Settlement is due on completion of works and an administration charge of £25 will be added per month if unpaid within 30 days. We reserve the right to charge for design, advice and liaison work carried out should an order not be placed. Goods remain the property of CP Interiors until full settlement is received. Should payment not be received we reserve the right to attend premises during working hours to remove goods and not be required to make good. Our full terms and conditions apply and are available on request.

Rue des Pres Trading Estate St Saviour

Paid amount £ 0.00

**Total amount** £ 6,785.10

**\*\* For Our Terms & Conditions of Sale please go to [www.cpinteriors.je](http://www.cpinteriors.je) \*\***

Please note: This quotation is only valid for acceptance for 7 days. Our estimate does not include any electrical work or additional carpentry work to install the above unless otherwise specified. Please note there is a handling charge on customer own fabric of £7.50 per metre. Due to high costs of labour, pre-arranged missed fitting appointments will be charged on a time-wasted basis. Settlement is due on completion of works and an administration charge of £25 will be added per month if unpaid within 30 days. We reserve the right to charge for design, advice and liaison work carried out should an order not be placed. Goods remain the property of CP Interiors until full settlement is received. Should payment not be received we reserve the right to attend premises during working hours to remove goods and not be required to make good. Our full terms and conditions apply and are available on request.

# Genius Product Guide

**KEEP FLIES OUT!**

# GENIUS RETRACTABLE SCREEN

*The Genius is a fully cassetted retractable screen, manufactured with Extruded Powder Coated Aluminium profiles. The screen mesh neatly retracts from view making this screen discreet. Window and door applications available, designed for domestic and light commercial use. Face or reveal fitted both internally or externally.*

The Genius Window with its compact 46mm box cassette is a versatile retractable screen. Various optional control models are available to suit the most demanding of applications. The screen is neatly held in place with catches concealed in the side channels, and the mesh retracts almost out of sight when not in use. A soft close brake can be fitted to the sprung operation models. (Not Tuff Mesh options). The SLS model allows the screen to be held in two positions, ideal for top and bottom opening windows.

Window models available:

- MGVS** – Sprung only
- MGV** – SLS -Sprung with additional shoot bolts.
- MGVCS** – Chain and Sprung
- MGV**– Chain only

The **Genius Door (MGH46)** is available in both single and double door options. Ideal for use with existing French doors, simple to install and easy to maintain. Soft close brakes are fitted as standard to all our Genius door models, except those using the TUFF Mesh option. Strong magnetic strip closure.

Door Models Available:

- MGH46** – Horizontal single door
- MGH46-2** – Horizontal double door.

*All Genius models (except Blackout) are fitted with our standard FR Fibreglass (18x16) charcoal mesh. Other mesh options are available. Supplied in White, Brown or Black from stock, other RAL colours available. Please contact sales for further details.*

Channel

## GENIUS BLACKOUT SCREEN

*The Genius Blackout window is a fully cassetted retractable screen, manufactured with Extruded Powder Coated Aluminium profiles. The screen fabric neatly retracts from view making this screen discreet. Designed for domestic and light commercial use. Internal face or recess fitting.*

*(Sample screen model shown)*

The Genius Window Blackout with its compact 46mm box cassette is a versatile retractable Blackout screen. Various optional control models are available to suit the most demanding of applications.

The screen is neatly held in place either with catches concealed in the side channels, or a magnetic closure bottom channel. The screen retracts almost out of sight when not in use. A soft close brake can be fitted to the sprung only model if required. Designed for both the commercial and domestic environments.

The Genius Blackout material is manufactured from 4 Ply Blackout Fibreglass laminated to 3 layers of vinyl PVC which provides 100% opacity (full technical specifications available upon request). Available in the following colours:

White.

Camel.

Champagne.

Window models available:

**MGVCSBO** – Chain and Sprung.

**MGVCSBOM**-Chain and Sprung with mag channel closure.

**MGVSBO** – Sprung only.

White or Brown finishes as standard. Special option RAL colours are available.  
Please contact our Sales Team for further details.

### Genius (46) Profile (Not to scale)

## Measuring Guide. Genius Window.

Please take note before you measure;  
Screens are manufactured to **SCREEN SIZE** (edge of frame to edge of frame excluding fittings). FLYDOR do not make any adjustments or allowances. All Measurements are in mm. Sizes to be supplied as Width x Height.

### WIDTH

(Birds eye view illustrated - Minimum width shown, side guides can be positioned to suit).

### HEIGHT

Face Fixing L Bracket

Recess Fixing M Clip

Face Fitting without sill.

Face Fitting with sill.

Recess Fitting with or without sill.

(Please note where no sill is present, an additional bottom channel will be required to provide a seal.)

**Genius Profile**  
(Not to scale)

Please take note before you measure;  
Screens are manufactured to SCREEN SIZE (edge of frame to edge of frame excluding fittings). FLYDOR do not make any adjustments or allowances. All Measurements are in mm. Sizes to be supplied as Width x Height.

### WIDTH

#### Single Door (Face Fitting)

(Birds eye view illustrated - Minimum width shown, side guide and cassette can be positioned to suit).

#### Double Door (Face Fitting)

(Birds eye view illustrated - Minimum width shown, cassettes can be positioned to suit).

**Important** ; When measuring please remember the shoot bolts will normally be fitted to the cassette which corresponds to the slave door ie. The door which is not used as the main thoroughfare. Please state which side you would like the shoot bolts to be fitted to.

### WIDTH

#### Recess Fitting Width

If using the cassette fixing "m" clips allow 5mm for fitting.

**Tip** - If the inner handle(s) on the screen is catching the door frame, the top and bottom guides can easily be cut down on site to reduce the width accordingly.

### HEIGHT

#### Height Measurement (All types)

The height is from the top edge to bottom edge of the cassette.

**Tip** - This measurement is critical! Watch out for plinths and any lips which are common with UPVC doors. Allow yourself at least 5mm if fitting into a recess.

# Installation Guide

## Genius Window Screens (All MGV- models)

**Step 1** Before proceeding, decide which of fitting options you wish to use and prepare the side guides prior to assembling the unit.

**FACE FITTING Option A** Drill directly through the guide using a 3mm bit. 15mm in from the outer edge. Open the front facing hole to 7mm and use the cover caps provided for a neat finish.

*(Tip) Use a small screw (3.5x 16) to affix to frame.*

**RECESS FITTING Option B** Drill 3.5 mm holes through the sides of guides, for directly fixing into the recess. Typically two or three depending on height.

*(Tip) Use the special tool 8460.0 to allow the fluffy pile to be safely moved when fitting.*

### Step 2 Fitting the Concealed Catches to the side guides.

**OPTIONAL INTERMEDIATE STOPS.** If using the optional intermediate stops, slide into the guide ensuring the “wedge” is to the (grooved) front of the side guide. Leave loose, adjust to desired height once the screen has been installed.

*(Tip) Gently does it! Avoid overtightening the grub screws when adjusting. This can cause damage to the side guide and failure to work properly*

To avoid the fluffy pile being pulled back into the cassette during use. Trim about 6mm off the length of the pile. Simply crimp the channel top and bottom with a flat headed screwdriver and hammer.

*(Tip) Gently does it! Avoid bending the guide out of shape by hitting too hard.*

Slide the catches (marked L or R) into the appropriate guide as shown. Ensure the hook is to the front (guides are shown with no pile for illustration purposes)

### Step 3 Preparing the Cassette prior to assembling the unit.

**FACE FITTING** Slide the face fitting L into the groove on the top of the cassette .

**RECESS FITTING** Insert the additional fluffy pile into the groove in the top of the cassette. The **M** bracket is directly fixed to the top of the recess and the cassette simply clicks in place .

#### Step 4 Assembling the unit prior to fitting.

Push the side guides into place ensuring the lugs are correctly located. There should be no gaps as per pic 2.

#### Step 5 Installation of the unit.

**FACE FITTING** Offer the screen against the frame, ensure the screen is square, then mark the fixing points. Carefully drill the pilot holes. Loosely fit the screen in place using suitable screws. Check operation of screen, before tightening.

**RECESS FITTING** Offer the screen into the recess, ensure the screen is square, then mark the fixing points for M clips. Remove the screen, Directly fit the M Clips to the top of recess. Click the screen into place. Mark the fixing points for side guides. Directly fix the side guides with suitable screws and fittings if required.

**CHAIN CONTROL OPERATION** Directly fix the chain retaining catch either in the recess or outside the recess.

#### **Important information.**

When using the *Genius Chain Control* screen, a suitable chain safety device(s) must be fitted. Both the Recess and Face Fitting devices are supplied along with the Chain Break as standard.

#### Step 6 Operation of the unit.

To operate the screen. Pull down smoothly and simply clip into place. To open, **TILT** the bottom bar to release from catches . Allow the screen to fully retract back into its cassette housing. .

## Installation Guide

## Genius Door Screens (All MGH & MGH-2 models)

Please read through before commencing.

### Step 1 Preparing the top and bottom guides.

**FACE FITTING** Drill directly through the front and back of the guides using a 3mm bit. **TO AVOID THE PULL BAR FOULING** it is advisable that the holes in the bottom bar are 12mm up from the bottom edge. Alternatively the bottom guide can be affixed using double sided tape. Open the front facing holes to 7mm and use the cover caps provided for a neat finish.

*(Tip) Use a small screw (3.5x 16) to affix to frame.*

**RECESS FITTING** Drill 3.5 mm holes through the bottom of guides, for directly fixing into the recess. Typically two or three depending on height.

*(Tip) Use the special tool 8460.0 to allow the fluffy pile to be safely moved when fitting.*

### Step 2 Securing the Fluffy pile

To avoid the fluffy pile being pulled back into the cassette during use. Trim about 6mm off the length of the pile. Simply crimp the channel at each end with a flat headed screwdriver and hammer. *(Tip) Gently does it! Avoid bending the guide out of shape by hitting too hard.*

### Step 3 Preparing the Cassette(s) prior to assembling the unit.

**FACE FITTING** Slide the face fitting L into the groove on the top of the cassette .

**RECESS FITTING** Insert the additional fluffy pile into the groove in the top of the cassette. The M bracket is directly fixed to the side of the recess and the cassette simply clicks in place .

*(Tip) it is virtually impossible to use the M clips when recess fitting the double doors!*

**Attention:** The guide wheel sits on the bottom channel only. This applies to both single and double door models. The screen will not work correctly if fitted "upside" down , and any damage will not be covered under warranty

#### Step 4 Preparing the Magnetic Catch Channel (Single Door).

Snip off a small piece of the magnet. Crimp both ends as shown to secure the strip in place.

#### Step 5 Assembling the unit prior to fitting.

(Double Doors) Ensure the shoot bolt catches are fitted into the top and bottom guides. Do not tighten yet!

Push the guides into place ensuring the lugs are correctly located. There should be no gaps.

#### Step 6 Installation of the unit.

**FACE FITTING** Offer the screen against the frame, ensure the screen is square, then mark the fixing points. Carefully drill the pilot holes. Top guide pilot holes must be 15mm down from the top edge of the profile. The bottom guide pilot holes must be 12mm up from the bottom edge of the guide. Loosely fit the screen in place using suitable screws. Check operation of screen, before tightening.

**RECESS FITTING (Single Door)** Offer the screen into the recess, ensure the screen is square, then mark the fixing points for M clips. Remove the screen, Directly fit the M Clips to the side of recess. Click the screen into place. Mark the fixing points for the channels and Mag Channel. Directly fix the screen with suitable screws and fittings as required. **(Double Door)** As long as the top and bottom guides are securely fixed in place, the cassettes can simply be "butt" fitted to the recess sides

#### Step 7 Shoot Bolt Catch (Double Door) Adjustment

**DOUBLE DOOR.** With the screen in place, slide the Shoot Bolt catches in the channels until the lug is dead centre in the top and bottom guides. Secure in place by tightening the grub screw, be careful not to over tighten.

#### **Maintenance:**

*To keep your screen in perfect working order please keep the guides free from debris and dirt. Should you need to clean the mesh, open the screen fully and simply lightly sponge with a mild cleaning agent and allow to dry before retracting. Simply wipe the framework with a damp soapy cloth and dry with a towel.*

To Operate the screens . **Single Door and window** Gently pull the screen across/down to the mag catch channel.  
**Double Door** bring the slave door over to the centre of the screen and secure in place with the shoot bolts. The main door pulls across to the slave door and is held in place by the magnetic strips. To open, break the magnetic seal by gently pulling the handle towards you. **Do not pull "apart"** The Mesh will then gently retract back into its cassette.

**\*\* For Our Terms & Conditions of Sale please go to [www.cpinteriors.je](http://www.cpinteriors.je) \*\***

<b>Subtotal</b>	<b>£ 1,396.00</b>
<b>GST</b>	<b>£ 69.80</b>
<b>Total</b>	<b>£ 1,465.80</b>
Paid amount	£ 0.00
<b>Total amount</b>	<b>£ 1,465.80</b>

Please note: This quotation is only valid for acceptance for 7 days. Our estimate does not include any electrical work or additional carpentry work to install the above unless otherwise specified. Please note there is a handling charge on customer own fabric of £7.50 per metre. Due to high costs of labour, pre-arranged missed fitting appointments will be charged on a time-wasted basis. Settlement is due on completion of works and an administration charge of £25 will be added per month if unpaid within 30 days. We reserve the right to charge for design, advice and liaison work carried out should an order not be placed. Goods remain the property of CP Interiors until full settlement is received. Should payment not be received we reserve the right to attend premises during working hours to remove goods and not be required to make good. Our full terms and conditions apply and are available on request.

*Checked by Adrian in office on 06/02/26*

<b>Subtotal</b>	<b>£ 3,694.00</b>
<b>GST</b>	<b>£ 184.70</b>
<b>Total</b>	<b>£ 3,878.70</b>
Paid amount	£ 0.00
<b>Total amount</b>	<b>£ 3,878.70</b>

Please note: This quotation is only valid for acceptance for 7 days. Our estimate does not include any electrical work or additional carpentry work to install the above unless otherwise specified. Please note there is a handling charge on customer own fabric of £7.50 per metre. Due to high costs of labour, pre-arranged missed fitting appointments will be charged on a time-wasted basis. Settlement is due on completion of works and an administration charge of £25 will be added per month if unpaid within 30 days. We reserve the right to charge for design, advice and liaison work carried out should an order not be placed. Goods remain the property of CP Interiors until full settlement is received. Should payment not be received we reserve the right to attend premises during working hours to remove goods and not be required to make good. Our full terms and conditions apply and are available on request.
