Subject: RE: Old bank house

Hi Claudio

I have spoken to Adrian, and he said he has already given you the best price he possibly can for the 6.8mm acoustic glass product.

To make it easier to compare quotes, we have recalculated using the **9 window** sizes from FF windows quote. Standard frame and 4mm toughened glass would be £5,861.00 inc. GST FF windows quote is £6,090.00

Options are:

Luxury subframe for shutter install, balanced opening which we have included as the windows are large, this allows you to stop the window in any position as this has spring catches, and 4mm toughened glass would be £7,593

as above with 6mm toughened glass (not acoustic) £8,097.00

I can calculate the Acoustic glass price if you would like this too.

You would need the sub frame to allow for shutter install, let me know your thoughts on preferences for the glass. Adrian could meet with you next week to discuss and check which windows you are thinking of having.

Kind Regards
