Gary Notes		Special Instructions: For the lounge mains blind we would require a 5amp fused spur - switched - with a 3 core cable - live - neutral & earth to the right corner area of the window - outside recess. approx 2 inch up and 2 inch across from the right corner. We can then join our 24v transformer and live up the blind to work on low voltage permanent feed. Gary is on 07791613024 to help electrician with requirement.	1	0.00
