			Totals:	1 50.00
CCC-N	<p>Contract Curtains            BS 5867-2:2008 Type A or Type B (Dry clean only)            Due to the amount of material supplied, not every individual fabric is tested. However verification of treatments to appropriate standards is established by the use of in-house tests, quality control procedures and by independent tests on similar fabrics by UKAS accredited laboratories. The test results, in this test report, relate to samples taken from the same processing batch and relate only to the ignitability of the combination of materials under the particular conditions of the test. They are not intended as a means of assessing the full potential fire hazard of the material in use.</p>
