Electrical works		Special Instructions: Emanuels Interiors us Integrate Electrical for all our motorised blind electrical requirements. They are a fully qualified local business. Gary Emanuel will arrange all electrical detail and all works will be signed off and presented to the school.	1	0.00	
FOC Hall temp window coverage		Special Instructions: As discussed with Paul, we can on proof measure, in knowing exams are due to start soon, offer temporary shading solutions until the half term where we can then install the new system. This can be arranged pre school return, or at the end of a school day. we would need to erect our tower to achieve this.	1	0.00	
Gary Notes		Special Instructions: Thank you for the call to quote for the schools blind needs. My recommendation is to use a durable FR wipe cleanable fabric in room darken called unishade. It is a british made fabric and suitable for all commercial installations. We will weight all bottom bars to allow the fabric to hang at its best and where there are window control cables up top, we may need to place a cut out in the blind to allow it to fall past the control cable. On final survey I believe that these cables may be able to be positioned slightly toward the wall which would allow blinds to fall in best position. All motors are guaranteed for 5 years and we have used this spec commercial motor for around 10 years now without issue. All blinds on the doors which require manual control can be framed and clipped to the door. Framing these will prevent abuse as the fabric will be tucked away.	1	0.00
