Gary Notes	Specials	Special Instructions: I have based quote on the flag ship sonesse 40 motor which I would use as battery and even better as mains opeated. Mains operation provides a more in Tandem operation and does not rely on a lithium ion battery. All battery motors we use are handpicked for performance but will never completely out live the mains operation counterparts. A very easy spur on each side can be placed ready for the blinds install which an electrician should not charge the earth charge too do.	1
