Hi Mark. Sorry, Please ignore previous request. We are going for roller blinds instead.

Could you please quote for 2X white roller blinds. They have to go on the facing as the bit of wood between window and hopper is in the way. The measurements are as follows.

Window 1. 950w X 1200D  
Window 2. 860w x 1200D

These dimensions are taken from outside edge of wooden window facing.

Regards.
