Additional Charges

Please note that that we cannot survey until all structures that affect blind measurements are in place (e.g. plasterboard & plaster, joists, window sills, skirting boards, tiling, architrave etc.).

When the blinds are installed, all plasterboard work, floor work and decorating must be complete unless otherwise agreed in writing. In order to prevent damage to the blinds, the environment must be entirely dust free and watertight. The customer is responsible for clearing the room in which survey or installation is to take place and to allow reasonable access for work.

If any of the above is not adhered to additional charges may apply.

If any changes are made by the client after the survey, or any agreed building requirements are not put in place by the client prior to installation resulting in a problem with the products, any extra work required from this will be chargeable back to the client.

Access

Access equipment for heights over 3600mm off floor level or specialist requirement is not included in the quote.

Power Supply and Wiring

240V fused spur is to be provided by the client/main contractor prior to installation. Price includes for concealed low voltage wiring during construction of the building provided the products are ordered in sufficient time.

Blindspace Installations

It is recommended that the Blinds & the Blindspace products are ordered together to ensure that the end result can be project managed and guaranteed by Grants blinds and not subject to change of specification that may affect the dimensions required.

Blindspace products are on a supply only basis, following an initial guidance and/or survey by Grants Blinds. Unless otherwise agreed, the contractor will do the installation including the Blindspace covers and not Grants Blinds. Once installed the areas around the Blindspace boxes will need to be finished off by the contractor, i.e. plastered in and areas painted. The covers will need to be finished off by the contractor after the install and commissioning of blinds. Where Blindspace is ordered separately no project management or site attendance is available.

Delivery timelines

Delivery for Blindspace boxes is 4-6 weeks from signed off schedule by Clients' project Manager. Design for inclusion of Blindspace remains the responsibility of the client or the clients representatives. Grants do offer a Blindspace installation service charged at a day rate of £850 ex vat or can provide a quotation on a job by job basis.

Delivery for Blinds is 8-10 weeks from final survey and specification being completed. Installation time 2-3 weeks.
