Additional Charges

Please note that that we cannot survey until all structures that affect blind measurements are in place (e.g. plasterboard & plaster, joists, window sills, skirting boards, tiling, architrave etc.).

When the blinds are installed, all plasterboard work, floor work and decorating must be complete unless otherwise agreed in writing. In order to prevent damage to the blinds, the environment must be entirely dust free and watertight. The customer is responsible for clearing the room in which survey or installation is to take place and to allow reasonable access for work.

If any of the above is not adhered to additional charges may apply.

If any changes are made by the client after the survey, or any agreed building requirements are not put in place by the client prior to installation resulting in a problem with the products, any extra work required from this will be chargeable to the client.

Access

Access equipment for installations over 3600mm off floor level or specialist equipment is not included in the quote and will need to be provided by the main contractor.

Power Supply and Wiring

240V fused spur to be provided by the client/main contractor prior to installation. Price includes for concealed low voltage wiring during construction of the building provided the products are ordered in sufficient time.

Controls and AV Integration

Pricing allows for the integration of blinds by client's AV company with Grants assistance.

Blindspace Installations

It is recommended that the blinds and Blindspace products are ordered together to ensure that the end result can be project managed and guaranteed by Grants Blinds and not subject to change of specification that may affect the dimensions required.

Products are on a supply only basis, following an initial guidance and/or survey by Grants Blinds. Unless otherwise agreed the contractor will do the installation and not Grants Blinds. Once installed the areas around the Blindspace boxes will need to be finished off by the contractor after the installation and commissioning of blinds.

Where Blindspace is ordered separately no project management or site attendance is available.

Design for inclusion of Blindspace remains the responsibility of the client or the clients' representatives. Grants do offer a Blindspace installation service charged at a day rate of £850 ex VAT or can provide a quotation on a job-by-job basis.

Delivery Timescales

Blindspace: Standard profiles stocked in the UK 1-2 weeks from signed returned schedule.

Custom imported made to order profiles 8 weeks from signed returned schedule.
