Additional Charges

Please note that that we cannot survey until all structures that affect measurements are in place (e.g. plasterboard & plaster, joists, window sills, skirting boards, tiling, architrave etc.).

When the products are installed, all plasterboard work, floor work and decorating must be complete unless otherwise agreed in writing. In order to prevent damage to the products, the environment must be entirely dust free and watertight.

The customer is responsible for clearing the room in which survey or installation is to take place and to allow reasonable access for work.

If any of the above is not adhered to additional charges may apply.

If any changes are made by the client after the survey, or any agreed building requirements are not put in place by the client prior to installation resulting in a problem with the products, any extra work required from this will be chargeable to the client.

Access

Access equipment for installations over 3600mm off floor level or specialist equipment is not included in the quote and will need to be provided by the main contractor.

Power Supply and Wiring

240V fused spur to be provided by the client/main contractor prior to installation. Price includes for concealed low voltage wiring during construction of the building provided the products are ordered in sufficient time.

Controls and AV Integration

Unless stated, our proposal does not allow for any products to enable blinds to be controlled by a 3rd party AV control system. Pricing for this will be provided once the specified requirements are confirmed by the AV company responsible for the integration. Pricing allows for the commissioning of products.

Blindspace Installations

It is recommended that the curtain track & Blindspace products are ordered together to ensure that the end result can be project managed and guaranteed by Grants blinds and not subject to change of specification that may affect the dimensions required.

Blindspace products are on a supply only basis, following an initial guidance and/or survey by Grants Blinds. Unless otherwise agreed, the contractor will do the installation including the Blindspace covers and not Grants Blinds.

Once installed the areas around the Blindspace boxes will need to be finished off by the contractor, i.e., plastered in and areas painted. The covers will need to be finished off by the contractor after the installation and commissioning of curtain track.

Where Blindspace is ordered separately no project management or site attendance is available.

A standard delivery cost has been included in the above Blindspace prices. Where the required length exceeds 2900mm, Blindspace will cut the boxing into equal lengths prior to despatch. Two boxes can be connected and aligned with 4 splice pins and cover with 1 splice plate which will be included in the delivery. If this is not suitable, we can arrange delivery of oversize orders for an additional delivery cost (POA).

Delivery timelines

Delivery for Blindspace boxes: 4-6 weeks from the signed off schedule by the clients' project manager. Design for inclusion of Blindspace remains the responsibility of the client or the clients' representatives. Grants do offer a Blindspace installation service charged at a day rate of £1,050 ex vat or can provide a quotation on a job-by-job basis.
