Bic/SWIFT - NWBKGB2L

For card payment please contact your Sales Designer who will send you the invoice/link to pay online.

Description

Additional Charges

Please note that that we cannot survey until all structures that affect blind measurements are in place (e.g. plasterboard & plaster, joists, window sills, skirting boards, tiling, architrave etc.).

When the blinds are installed, all plasterboard work, floor work and decorating must be complete unless otherwise agreed in writing. In order to prevent damage to the blinds, the environment must be entirely dust free and watertight. The customer is responsible for clearing the room in which survey or installation is to take place and to allow reasonable access for work.

If any of the above is not adhered to additional charges may apply.

If any changes are made by the client after the survey, or any agreed building requirements are not put in place by the client prior to installation resulting in a problem with the products, any extra work required from this will be chargeable to the client.

Access

Access equipment for installations over 3600mm off floor level or specialist equipment is not included in the quote and will need to be provided by the main contractor.

Power Supply and Wiring

240V fused spur to be provided by the client/main contractor prior to installation. Price includes for concealed low voltage wiring during construction of the building provided the products are ordered in sufficient time.

Controls and AV Integration

Unless stated, our proposal does not allow for any products to enable blinds to be controlled by a 3rd party AV control system. Pricing for this will be provided once the specified requirements are confirmed by the AV company responsible for the integration. Pricing allows for the commissioning of blinds.

Delivery timelines

8-10 weeks from final survey and specification being completed. Installation time 2-3 weeks.

CIS scheme

Blinds & curtains are not part of the CIS scheme.
