

Luxaflex® Awnings

Bring comfort and individuality outdoors

Luxaflex®

Awnings & Outdoor Living

Luxaflex® Awnings offer the best in open-plan outdoor living, providing custom made solutions for small terraces to large outdoor entertaining areas.

Our Outdoor Awnings represents the latest in design and functionality, all made with high quality materials and smooth operating systems.

Creating an outdoor room or external shading to extend homes into the outdoors is a great way to maximise the garden, whilst adding some extra protection against the early morning and late evening chill – but with all the feel-good benefits that fresh air and a great view brings.

There's nothing to stop you having a full Sunday dinner on your patio, elevenses by the pool or breakfast on the veranda! Our incredible range of exclusive Awnings mean you can experience alfresco dining in shade, shelter and comfort.

Bring style to your outdoors with Luxaflex® Awnings

Luxaflex® folding arm awnings range span up to 14 meters wide.

Flush fitting cassette versions provide protection for the fabric and components – each with a five-year guarantee.

The most popular is our Base Plus system. This is a lovely streamlined, fully cassette awning with a distinctive grooved front rail. Featuring stainless chain arms and end fix brackets (maximum dimensions are 5.5m wide by 3.1m arm length).

To protect the components through the harsh winter months the arms and cover are fully enclosed in a cassette box when retracted for maximum weather protection.

Whether you're looking to create bold contrasts or two-tones harmonies, our Dickson® fabrics range offer infinite possibilities to make awnings play a truly pivotal role in your outdoor decorating and design.

Thanks to their unique coating, these fabrics are water resistant and protect Awnings from the elements by preventing water and dirt penetration.

COLOURS THAT LAST

The solution-dyed yarn used to produce our fabrics offers long-lasting resistance to UV rays and weather conditions. Even when exposed to strong sunlight, they retain their dazzling colours... for a very long time.

TEXTILES THAT PROTECT PEOPLE AND THE PLANET

Awarded the OEKO-TEX label (class II, products in direct contact with the skin), Dickson fabrics are produced without hazardous substances and do not pose a threat to health, the skin or the environment.

10-YEAR FABRIC WARRANTY

Its high-performance fibres, treatments and weaving processes allow Dickson® to guarantee some of its fabrics for up to 10 years.

QUALITY AND SUSTAINABILITY

Our powder coating system guarantees the improvement of the quality characteristics of the product, minimising the risk of environmental pollution.

A choice that comes from the desire to always keep up with technological innovation and ensure minimum impact on the environment.

Our components are designed and tested to resist and last over time even against corrosion from atmospheric agents.

We want to take care of the environment in which we live in and for this we use eco-friendly material in the production of accessories and components for solar shades.

DESIGNED FOR LIVING

Extend your day well into the evening with some soft lighting, which can be added either as spotlights in the arms or as an integrated lightbox.

Other choices include a cosy heating system for those chillier evenings and a music system for when you want to dance the night away!

MOTORISATION

From the simplest manual control to the most advanced motorisation. Luxaflex® Awnings can be adapted to any requirements. A sun and a wind sensor can instantly activate the awning when it registers the sun's rays, and can retract the awning when the winds seem too high.

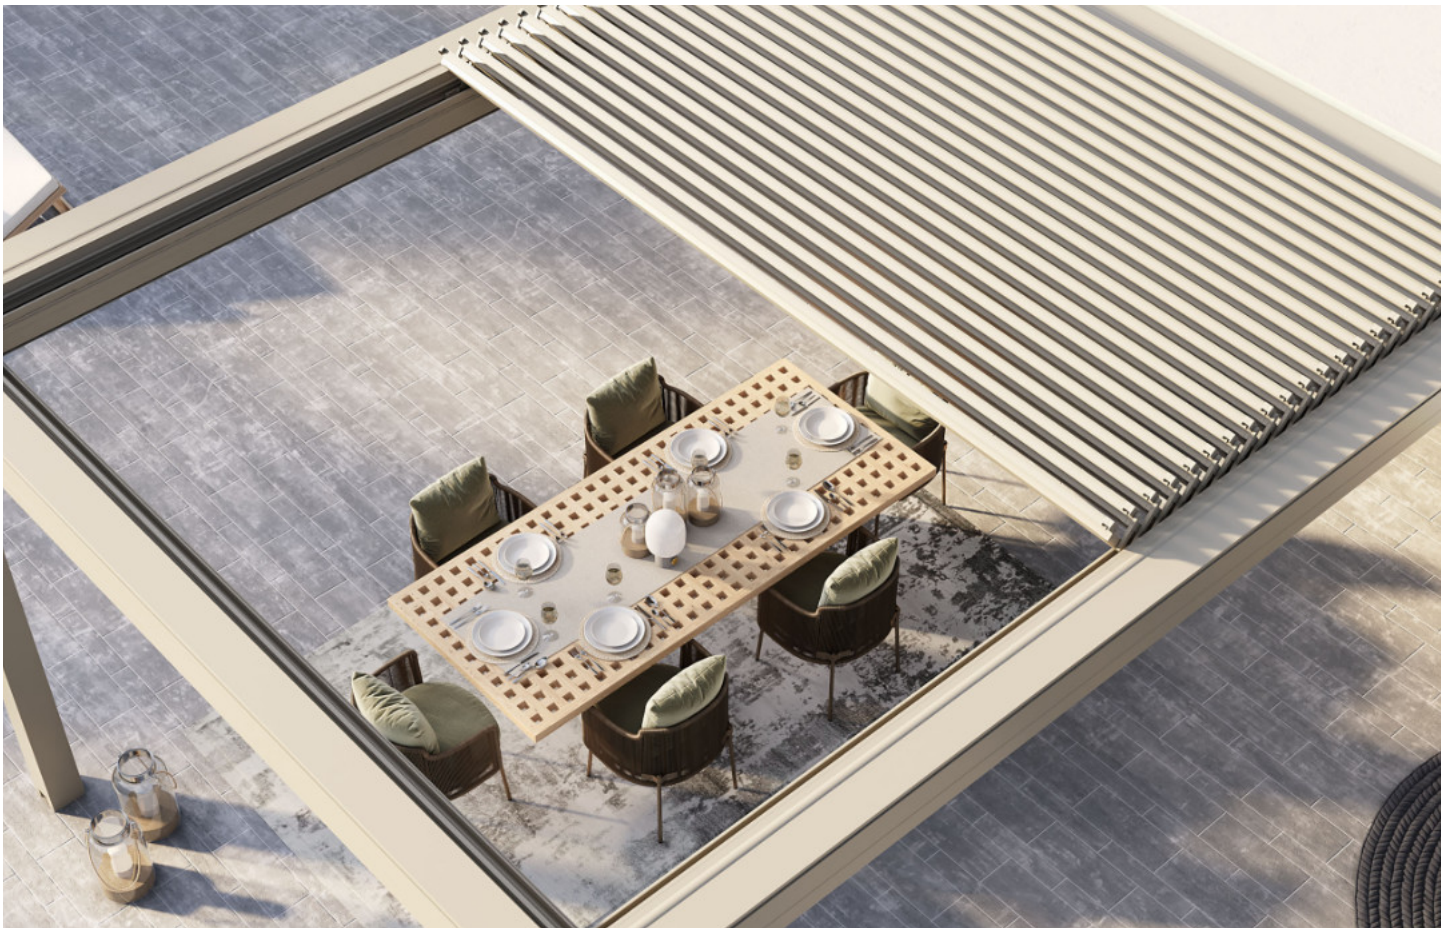

Live your life to the full while enjoying fresh air and the sun.

GENNIUS

PERGOLAS

Whether it is a garden or a terrace, a poolside or a park, an aluminium pergola will help you design a new way of living outdoors in a personalised way and following the trends of contemporary architecture. Pergolas and pergola covers – born from an ambitious path of research and technical and stylistic development – create new outdoor spaces with maximum privacy and transform every moment of outdoor living into one of relaxation and style components for solar shades.

At Luxaflex® our window treatments start with great design. Light control, energy efficiency, and the convenience of motorisation are just some of the innovations that enhance the beauty of every room, every day – made to measure with a five-year guarantee.
